From the Administrator....

Hello Everyone

I hope everyone is having a wonderful summer and you are able to take advantage of this beautiful weather we are having. Taking time for ourselves can be difficult with all the demands life puts on us, but we need to remember to take time to decompress and rejuvenate. Summer passes by quickly so enjoy. Our team is working hard on some projects and we have begun our "Quest for Gold".

Silver Creek Manor is committed to providing the best quality care to our residents. Stayed tuned for a few new surprises!

Happy Summer!

From the Desk of the DNS.....

Hello all!

*I think I have at least met everyone who works here, now, however I am still working on learning everyone's name...residents, families, and of course staff. So I have now been here for one month! How time flies! I knew I made the right choice coming here to work. Why? Because the day that I came for my first interview, I had to wait in the front atrium for Kim (administrator) for a little while. I got to see things....great communication, staff talking to families, staff talking to each other, staff talking to residents. I saw residents well cared for, neat in appearance, positioned well in chairs, hair and nails done, clothes that matched, the ladies had their jewelry on (we ladies love our jewelry don't we!). I saw great physical therapy going on. I saw a happy family! It is my pleasure to have been welcomed into such a wonderful family and I want to say thank you all for making that happen. As you all know my door is always open. Stop in anytime!
Mal, DNS*

Mary, Dietary Aide

How Does Person-Centered Care Benefit Residents?

Residents have autonomy and are able to direct care and services. Resident choice fosters engagement and improves quality of life. Residents continue to live in a way that is meaningful to them.

How Does Person-Centered Care Benefit Nursing Home Staff?

Staff members are more comfortable caring for people they know. Staff form a strong partnership with residents and their families. Staff knows a person's preferences, can anticipate the person's needs and adapt accordingly.

How Does Person-Centered Care Benefit Nursing Homes?

Nursing homes have better quality outcomes due to the ability of staff to identify and respond appropriately to changes in a resident's condition. Nursing homes gain referrals from people who have a good experience and recommend the nursing home to others as a place for care.

Person-Centered Care at Silver Creek Manor promotes choice, purpose and meaning in daily life. We strive to support residents in achieving and maintaining the highest level of physical, mental and psychosocial well-being that is individually possible. This is important in keeping the resident at the center of the care planning and decision-making process. Care plans are living documents that are revised to reflect a person's changing needs. This is achieved through collaboration within an Interdisciplinary team, resident and family. These meetings are held quarterly, keep a look out for letters in the mail. We look forward to seeing you and value your input.
