

**SILVER CREEK'S CREATIVE CORNER**

*As we work on our Therapeutic Arts Program as well as the Hope Program for those with Dementia, we are happy to share with you what our residents have been busy doing. Every other month we will publish a "Creative Corner" flyer with different successes of our residents. If you have a talent that you'd like to share with us please let us know! We are always looking for new experiences!*

***February is Here***

Another month is coming in  
Bringing hearts and flowers, so sink or swim!  
Groundhog Day is very near,  
Hope he sees his shadow over there.  
Remember, take your vitamins ~  
That will keep you healthy,  
It keeps you well so you may stay wealthy.  
I'll end this now, so  
Smile and go shopping at the mall!  
I wish I could see you there!  
Happy Valentine's Day to All!

***Stay well & healthy***

***Your Resident Poem Writer***

***Of Silver Creek Manor, Marge Prenda***

**Our Residents participate in activities that are empowering and person centered, using their life skills.**

The Federal Government (CMS) define the role of activities in long term care, as follows:

- *Providing meaningful activities which promote engagement, and positive meaningful relationships between residents and staff, families, other residents and the community. Meaningful activities are those that address the resident's customary routines, interests, preferences, etc. and enhance the resident's well-being.*

Our Activities Department works very hard to accomplish this. Below enjoy some photos of past events and programs that involve our residents and our staff, building on those relationships of caring.

**Cooking and Preparing for the afternoon programs, Maria and Nellie.**

**The Holidays at the Creek are always busy and filled with community!**

**This month, look for more Hope Cluster programs in the afternoon on both levels. We will be looking for donations of new and gently used items to help complete our sensory carts and programs.**

---

**Our HOPE program is well underway with our leisure program clusters based on level of function in full formation.**

**In order to build our person centered supplies for these programs, we are asking for new plastic shoe box size storage containers. These will be used for individual sensory items for each resident.**

**Please see Nancy Lowney for more information.**

# We need your help!

**Donate new/good condition plastic containers with lids, shoe box size for our sensory program.**
