

SILVER CREEK'S CREATIVE CORNER

As we work on our Therapeutic Arts Program as well as the Hope Program for those with Dementia, we are happy to share with you what our residents have been busy doing. Every other month we will publish a "Creative Corner" flyer with different successes of our residents. If you have a talent that you'd like to share with us please let us know! We are always looking for new experiences!

March Winds Are Coming!

March Winds are coming
The saying is in like a lion!
There is no denying it still is chilly
But days are longer
And getting brighter
We are going into spring
So about to have a fling!
Buds are appearing, I just lost an ear ring
Now I know my legs. And arms are getting warm
It will cause no harm
To say stay well and get back to growing veggies on your own farm
Happy and healthy eating to you all!
May the good lord keep you all in his hands.
Love and god bless you all
m.p.

Stay well & healthy

Your Resident Poem Writer of Silver Creek Manor,

Marge Prenda

Our Residents participate in activities that are empowering and person centered, using their life skills.

The Federal Government (CMS) define the role of activities in long term care, as follows:

- *Providing meaningful activities which promote engagement, and positive meaningful relationships between residents and staff, families, other residents and the community. Meaningful activities are those that address the resident's customary routines, interests, preferences, etc. and enhance the resident's well-being.*
-

Our Activities Department work very hard to accomplish this. The past month had crafts, cooking and an all-important Mardi Gras party!

Please also welcome our new Activity Staff:

Celeste, Joyce, and Megan!

They will be training with Nancy and eventually working with Kendra, Sue and Shay!

We are excited to have experience and creativity in our department!

Please see our additional information regarding our Evening Twilight Program.

Help us to make it a success!

Our HOPE program is well underway with our leisure program clusters based on level of function in full formation.

In order to build our person centered supplies for these programs, we are asking for new plastic shoe box size storage containers. These will be used for individual sensory items for each resident. Please see Nancy Lowney for more information.

We need your help!

Donate new/good condition plastic containers with lids, shoe box size for our sensory program.
